

ULTRA DREAM™

FULL SPECTRUM SLEEP SUPPORT

REDISCOVER THE SLEEP YOU'VE BEEN DREAMING OF

EXCLUSIVE TECHNOLOGY TO SUPPORT HEALTHY SLEEP.

The support you need. Every delightful serving of UltraDream™ features our sleep support blend and our Mimetix™ blend to enrich the quality of your sleep.

Notable ingredients. Well-known sleep aids GABA and Melatonin help you settle and promote deep, restful sleep.*

Exceptional bioavailability. UltraDream™ offers full spectrum endocannabinoid system-based sleep support made water-soluble for enhanced absorption.*

THE SCIENCE

The Endocannabinoid System, or ECS for short, is a complex network of receptors that are found throughout your brain, body, and immune system. This system is believed to be responsible for balancing functions related to relaxation, cognition, and sleep. Your ECS is fueled by endocannabinoids, which are molecules produced by your body to interact with

these receptors. When the production of endocannabinoids becomes slowed or imbalanced, phytocannabinoids, which are cannabinoids produced in the hemp plant, can supplement what the body may be lacking.

THE MIMETIX™ FORMULA

Typically, the conversation about the endocannabinoid system (ECS) revolves around phytocannabinoids alone. Mimetix™ takes ECS health to a whole new level. Mimetix™ includes cannabimimetics that have a similar pharmacological impact on the ECS as phytocannabinoids. When these compounds are combined in a full spectrum, water-soluble format, they can easily be added to your daily routine to support healthy sleep.*

EXCLUSIVE TECHNOLOGY

As we all know, oil and water don't mix. This can be a challenge when taking oil-based supplements. UltraCell™ technology turns oil-based compounds into a water-soluble format. This exclusive technology has been demonstrated in a clinical study to enhance the bioavailability of our oil supplements.
